The Following changes, additions, deletions, clarifications, or corrections shall become part of the Request for Proposal documents. All other terms, specifications, and conditions remain the same.

QUESTIONS AND ANSWERS:

Q1: For Soccer Field Lights page 24 in the notes states 50 Foot-candles - on page 57 it calls for 30 Foot-candles. Which would you like to do?

Q1 Response: Specification 265658: Revise Section 2.5.B to read: "Maintained light levels over the entire areas shall average 50 foot-candles on fields and Courts".

Q2: Plan page E1.0 is calling out 50 FC light level for the soccer fields, but Specification section 2.5 Performance Requirements states 30 FC light level for soccer fields. Please clarify what light level is required.

Q2 Response:

Q3: Plan page E1.0 is calling out 50 FC light level for the soccer fields, but Specification section 2.5 Performance Requirements states 30 FC light level for soccer fields. Please clarify what light level is required.

Q3 Response: Refer to Q1 Response

Q4: Is a cutsheet available for the speaker and security camera so we can accurately determine the additional load on the poles? Is the sports lighting manufacturer required to provide a bracket and handhole for each pole? If so at what height?

Q4 Response: Cut sheets are not available at this time. The Owner’s site contractor will be responsible for furnishing and installing mounting hardware for speakers and cameras that is compatible with the selected lighting system. The lighting manufacturer is responsible for providing handholes in the appropriate locations for the site contractor’s wiring and connections for speakers and cameras. Speakers will be installed at a height of fifteen feet (15’) above finish grade. Cameras will be installed at a height of thirteen feet (13’) above finish grade.

Q5: Sheet E1.0 - Please clarify that the only poles that have security fixtures attached to them A7 and A8 (ST2 Fixture).

ADDENDUM No. 1
Date: March 06, 2018

Q5 Response: Revise speaker and camera locations as follows:
   i. Field 1 - Relocate speakers and cameras to poles A1 and A2. Both speakers and cameras will face towards Field 1.
   ii. Field 2 - Relocate speakers and cameras to poles A5 and A6. Both speakers and cameras will face towards Field 2. Additionally, provide camera locations to poles A7 and A8. Cameras on these poles will face away from Field 2.
   iii. Field 3 - Relocate speakers and cameras to poles A11 and A12. Both speakers and cameras will face towards Field 3.

Q6: Sports lighting pole detail is showing a type "S3" fixture needed to illuminate walking paths. What poles are required to have a type S3 fixture?

Q6 Response: On Sheets E1.0 and E1.1, revise fixture callout on Sports Lighting Pole Detail to read: “Provide security lighting fixture as indicated on the plans; Coordinate exact location on pole with pegs & cable. Rotate optics as needed to illuminate walking paths.”

Q7: Is a DWG file available to the bidders to provide a more accurate lighting design?

Q7 Response: A DWG file will be provided to each Proposer who request in writing to Mrs. Cindy Clack as described in the RFP Q/A protocols.

Bidders are advised that they are still responsible for preparing their bid based on the entire set of bid documents that have been issued for the project. Bidders are solely responsible for their own interpretations, calculations, and use of the information on the drawings for their own calculations for bidding.

The USER acknowledges that this CAD file IS NOT a part of the contract documents. Some items shown on the plans may be diagrammatic for clarity, not literal. There may be further notes on the contract documents that provide additional information.
