As a condition of authorizing the addition of sewage flow into the Barrow County Sewer System, Utility Manager must:

- Certify the availability of adequate capacity to provide required treatment increased sewage flow or,
- Require the completion of offsetting sewer improvements to the Barrow County Sewer System and/or,
- Assure that the applicant has received all required approvals for alternative sewer disposal techniques where adequate capacity is not available.

Should adequate capacity require the completion of offsetting sewer improvements, approval of applications for building permits and/or Certificates of Occupancy shall not be given until the offsetting sewer improvements are completed.

If the project scope and/or the calculation of sewage flows referenced herein is revised, the Applicant must amend this Application and any pending permit application for the proposed project in a timely manner.

Applicant Agreement: The filing of this form by the Applicant, in the capacity of legal representative of the Owner and Developer of the parcel or property, places no obligation on Barrow County, its officers, employees, agents and assigns, to issue a building permit, conditional or otherwise. Any misrepresentations in this application, failure to provide new, revised or updated information regarding the estimated sewage flow, or subsequent violation of the conditions of the capacity certification process, will result in revocation of the building permit and other remedies available in equity and law for the improper filing of legal documents. I (the applicant) further acknowledge and agree to comply with all the terms and provisions of the Barrow County UDC Code of Ordinances including but not limited to Article IV Section 90-111 through Section 90-125 entitled Sewer Use in Chapter 90 Utilities Ordinance (as amended from time to time).
