CUSTOMIZE YOUR NEW PHONE!

Simply program the buttons on your phone

Speed Call programmable key configuration

A Speed Call key allows you to dial a specified number with one key press. Speed Call keys can be useful as they can be programmed to dial directly to an internal or external number or quickly access features that use feature access codes.

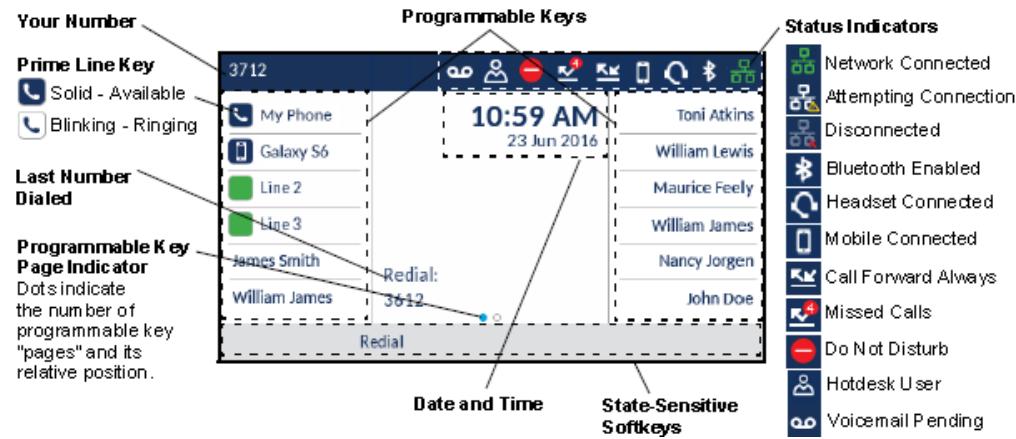

Note: Configuring a programmable key using the press-and-hold method is only available if enabled by your System Administrator.

Programming a Speed Call key

1. Press and hold the applicable programmable key (for 4-5 seconds) until the Label Name field is displayed.
2. In the Label Name field, enter a label to apply to the key using the on-screen keyboard.
3. Tap the Number field and enter a number using the dialpad keys.
4. (Optional) Tap the Private check box to make the key a Private Speed Call key. When a Private Speed Call key is tapped, the call is considered private and caller ID information is not displayed in the phone's call history.
5. Tap the Save softkey to save the information to the key you selected.

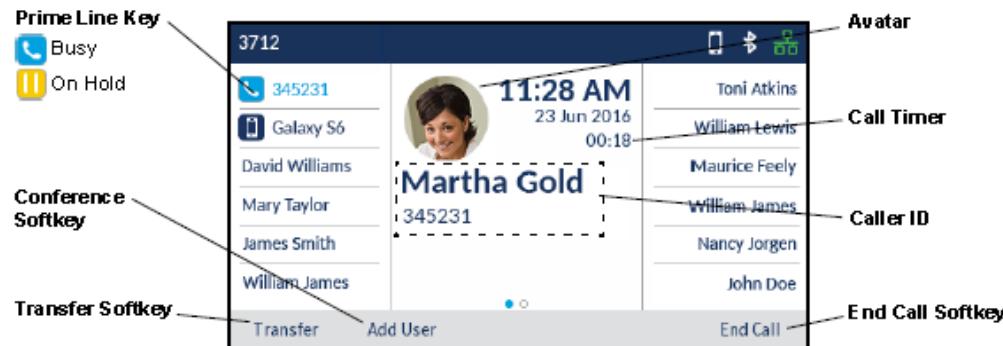

HOME SCREEN

The Home Screen displays the date and time along with your number and last dialed number. It is the default screen displayed when the phone is in an idle state.

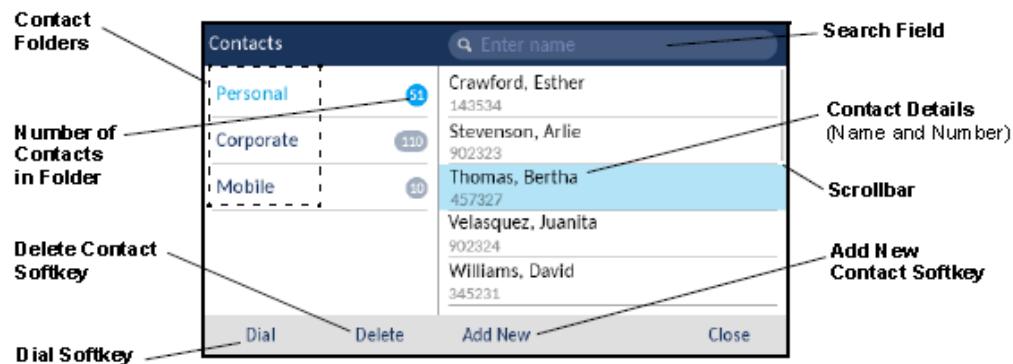

CALL SCREEN

During an incoming, outgoing or when on an active call, all the essential information regarding the call is displayed on screen, including the caller's avatar, name, number, and call duration timer. The context-sensitive softkeys also change allowing you access to more call handling features.

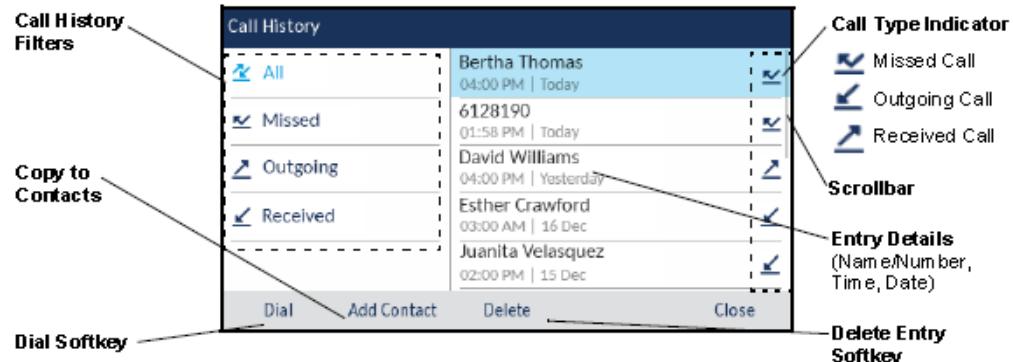

CONTACTS SCREEN

The Contacts application is your personal phone book and directory, conveniently stored within your phone. The Mitel MiVoice 6930 IP Phone supports a localized Personal contact folder as well as enhanced functionality allowing for interoperability with LDAP (corporate) directories. The phone also supports MobileLink Synchronization with mobile phone contact lists using Bluetooth capabilities

CALL HISTORY

The Call History application is a stored log of your missed, outgoing and received calls. You can view, delete and dial out to call history entries as well as copy entries to your Personal folder in the Contacts application.

MobileLink features

The Mitel MiVoice 6930 IP Phone supports MobileLink, a feature that provides seamless mobile integration using Bluetooth wireless technology. MobileLink highlights include the ability to:

- Sync your mobile phone's contact list with your 6930 IP Phone.
- Answer a mobile phone call using your 6930 IP Phone.
- Move active calls between the 6930 IP Phone and your mobile phone.

Note: MobileLink features are available only if your Administrator has enabled them. Contact your Administrator for details on how to enable MobileLink functionality on your phone.

Pairing a mobile phone using Bluetooth

1. Press  the key, navigate to **Bluetooth** setting, and press the **Select** button or **Select** softkey.

2. Press the **Turn On** softkey to enable Bluetooth functionality.

Ensure your mobile phone is discoverable as the Mitel MiVoice 6930 IP Phone automatically scans for available Bluetooth devices.

Note: For information on how to make your mobile phone Bluetooth discoverable, refer to the documentation provided with your respective mobile phone.

3. When your mobile phone has been discovered, use the navigation keys to highlight the respective entry on the list of available devices and press the **Select** button or **Pair** softkey.

A Bluetooth pairing request displays on both the Mitel MiVoice 6930 IP Phone and your mobile device.

4. Ensure the pairing code matches on both devices and press **Yes** on the Mitel MiVoice 6930 IP Phone and acknowledge the pairing request on your mobile phone.

The Mitel MiVoice 6930 IP Phone attempts to pair the mobile phone and if successful, automatically attempts to connect to the mobile phone.

Note: If pairing or connecting fails, a failed error message displays onscreen. Press **Retry** to attempt to pair or connect again, or **Cancel** to cancel the attempt.

5. Press **OK** to acknowledge the successful connection.
The connected mobile phone is added to the list of **Paired Devices** and is ready to use.

Syncing mobile contacts

The Mitel MiVoice 6930 IP Phone automatically attempts to sync your mobile contacts to the Contacts application upon pairing and connection.

To manually update your mobile clients:

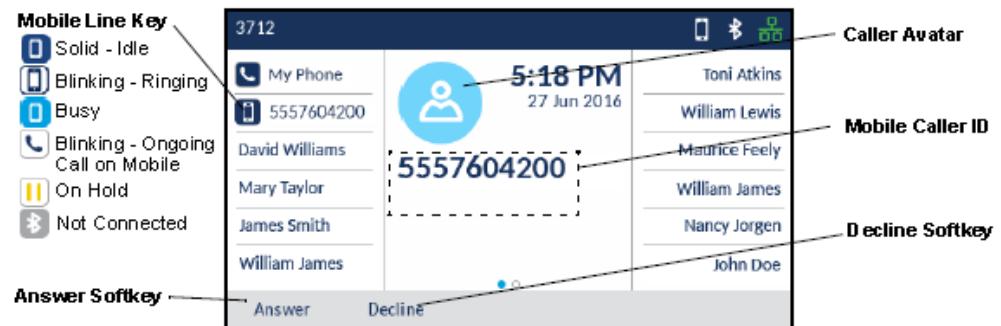

1. Press the  key to access the Contacts application.
2. Navigate to the **Mobile** contacts folder.
3. Press the **Update** softkey.

The Mitel MiVoice 6930 IP Phone attempts to re-synchronize and update your mobile contacts.

Note: If the update fails, a failed to retrieve contacts message displays on screen. Press **Retry** to attempt to update again, or **Cancel** to cancel the attempt.

Answering an incoming mobile call using your Mitel MiVoice 6930 IP Phone

When your mobile phone is paired and connected to your Mitel MiVoice 6930 IP Phone, incoming calls on your mobile phone will be indicated on your 6930 IP Phone as well.

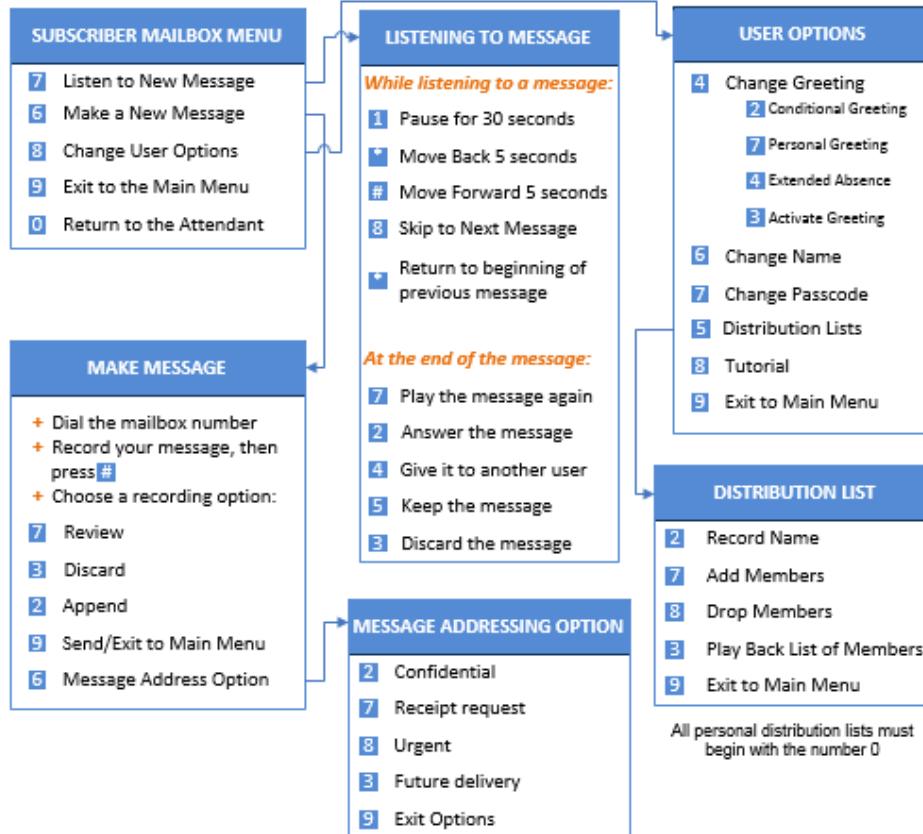

Lift the handset for handset operation or press the  key, blinking  **Bluetooth Line** key, or **Answer** softkey for handsfree operation.

Moving the audio of an active mobile call between your mobile phone and Mitel MiVoice 6930 IP Phone

Press the **Push call** softkey to push the mobile call's audio from your Mitel MiVoice 6930 IP Phone to your mobile phone or

Press the  **Mobile Line** key to pull the mobile call's audio from your mobile phone to the Mitel MiVoice 6930 IP Phone.
